# FRIED ONION APPLICATIONS

Fried onions or birista is becoming a common ingredient in processing various products and preparing dishes, both commercially and at the household level. Its crispy texture and rich flavor not only elevates taste but also adds great convenience in the production process.

- **Biryani & Pilafs** – A must-have garnish that adds crunch, aroma and depth of flavor
- **Curries & Gravies** – Blended or added to enhance richness, texture and taste
- **Ready-to-Cook Meals** – Used by food manufacturing processors as a key ingredient
- **Packaged Foods** – Adds flavor and crunch in savory snacks
- **Burgers & Sandwiches** – A popular filling for added flavor and taste
- **Casseroles & Bakes** – Used as a crispy topping to enrich baked dishes
- **Soups & Salads** – Mixed in or served alongside to enhance texture and savory taste
- **Other Applications** – Used in poha, pizza, upma, misal pav, frankies, wraps, chaat and more for added crunch and flavor
- **Everyday Cooking** – Used as an excellent alternative to fresh onions in daily cooking at home, restaurants, caterers and more
